

# IPB Mobile for Parents Access Guide

Download on

1

For parents/guardians of new students, IPB Mobile for Parents account credentials are automatically sent by IPB to the registered parent's email address provided during the student admission process. Before requesting a new account, please check your email inbox, including the spam/junk folder, to confirm whether the account details have already been delivered.

2

If you do not have an account, please request an account by sending an email to:  
Email: [ict@apps.ipb.ac.id](mailto:ict@apps.ipb.ac.id)  
Subject: Parent Apps Account Request

Please provide the student's full name and date of birth for account verification purposes.

3

The account will be processed and sent to the registered email address within a maximum of 3 business days.

4

After receiving the account credentials, parents/guardians can access the IPB Mobile for Parents application by using the provided username and password.

Please keep your account information stored in a secure personal record to ensure easy access in the future if the email containing the account details is deleted or the account information is forgotten.
